Should the City of Kansas City, Missouri (the “City”) sell approximately 3.46 acres of land to Ronald McDonald House Charities of Kansas City (“Ronald McDonald House”), where such land is located between E 25th Street and E 26th Street, and between Gillham Road and Cherry Street, and includes the land currently occupied by Ronald McDonald House, so that Ronald McDonald House supports the growing need of serving families of ill and injured children that reside within the City, and throughout the City’s region, by expanding to provide more families with access to treatment, services, and care at pediatric hospitals within the City, and with free essential services, such as lodging, meals, and other support, where such sale requires Ronald McDonald House to maintain the acquired land, including all easements thereto, and to allow approximately 1.5 acres of designated land to remain open and available to the public for park purposes, and where such sale is for terms and consideration as the City may determine?
